### **Psychiatry Practices Merge to Form Wellstead Mental Health Trusted Providers, Psychiatry Associates of Tallahassee and Capital City Psychiatry, Unite Under New Name, Expanding Services Across Florida**

**Tallahassee, Fla.** – August 25, 2025 - Capital City Psychiatry and Psychiatry Associates of Tallahassee, the two longest-standing psychiatry practices in Tallahassee, have come together and are launching a new legacy as **WellStead Mental Health**. Effective immediately, both offices will operate under this new name while maintaining their individual locations and the high standard of care patients have trusted for years.

This partnership brings together both teams and their talented clinicians, who remain committed to delivering the same personalized, quality care their patients expect. Existing patients can count on seeing the same trusted providers, now backed by the combined expertise and resources of WellStead Mental Health.

WellStead Mental Health is pleased to offer a comprehensive range of behavioral health services, including:

- Psychiatric evaluation and treatment
- Psychological assessment and testing
- Individual, couples, and family therapy
- TMS (Transcranial Magnetic Stimulation) for depression and other conditions

Additionally, WellStead Mental Health launched a psychiatry residency clinic in July 2024, in partnership with HCA Healthcare and the University of Central Florida, giving patients access to emerging providers under expert supervision and contributing to the education of the next generation of psychiatrists in Florida.

WellStead Mental Health is dedicated to making high-quality mental health care accessible. The organization opened a new site in Orlando on August 18th and plans to add a third Tallahassee office later this year. In addition, WellStead Mental Health will also open a Sarasota location this year. Each new site will provide the same welcoming environment and high-quality, evidence-based care that patients throughout the region rely on.

“We are thrilled to take this step forward together,” said Dr. Jeffrey Ferraro, Chief Medical Officer and Co-founder, at WellStead Mental Health. “This new chapter allows us to build on our longstanding history in Tallahassee and serve even more individuals and families across Florida.”

“This collaboration is an exciting step forward for our entire team and the communities we serve,” added Dr. Faisal Munasifi, Co-founder of WellStead Mental Health. “By joining forces, we can expand our reach and offer even more comprehensive mental health care, while ensuring our patients continue to receive the personalized attention they deserve. We look forward to helping more individuals and families achieve lasting wellness through our combined expertise and dedication.”
